Correction: Incidence rates of treated mental disorders before and during the COVID-19 pandemic—a nationwide study comparing trends in the period 2015 to 2021

Pia Jensen^{1,2*}, Bo Engdahl³, Kristin Gustavson^{1,2}, Ingunn Olea Lund^{1,2}, Johanne Hagen Pettersen^{1,2}, Christian Madsen⁴, Lars Johan Hauge⁵, Ann Kristin Skringdo Knudsen⁴, Anne Reneflot⁵, Ragnhild Eek Brandlistuen⁶, Helga Ask^{1,2} and Ragnar Nesvåg¹

Correction: BMC Psychiatry (2023) 23:668
<https://doi.org/10.1186/s12888-023-05157-1>

Following the publication of the original article [1], the authors identified errors in the Discussion section. The updated sentence is given below, and the change has been highlighted in **bold typeface**.

The sentence currently reads:

In primary- and specialist health care, the observed incidence rate among 18–24-year-olds in 2021 was more than 140% higher than predicted.

The sentence should read:

In primary- and specialist health care, the observed incidence rate among 18–24-year-olds in 2021 was more than 40% higher than predicted.

The original article [1] has been corrected.

Published online: 24 November 2023
